

HÄNDE-/HAUT-
REINIGUNG/PFLEGE

ACO[®]-san

Milde Waschlotion

Free of perfumes
and colourants

Product Information

Please read carefully!

ACO®-san

INGREDIENTS

Aqua, Sodium Chloride, Sodium Laureth Sulfate, PEG-200 Hydrogenated Glyceryl Palmitate, PEG-7 Glyceryl Cocoate, Sorbic Acid.

PRODUCT FEATURES

- Is also well tolerated by skin sensitive to soap.
- Preserves the skin's natural protective barrier.
- Skin-neutral pH value.
- **ACO®-san** is microbiologically tested.
- **ACO®-san** is free of perfumes and colourants.
- By dispensing with other stabilizing components, the preparation may appear optically altered under the influence of light. This does not affect the quality of effectiveness of the wash lotion.

SCOPE OF APPLICATION

- **ACO®-san** is suitable for regular use due to its skin compatibility and is particularly recommended if frequent washings are necessary for personal reasons.
- Suitable for surgical hand disinfection and as supplement to alcoholic hand disinfectants.
- For washing and showering.
- For general body cleansing.
- Suited for use even in case of sensitivity against soaps.

INSTRUCTIONS FOR USE

Moisten hands or skin, wash with **ACO®-san**, rinse well, then let dry. For foam baths and body washes, apply a greater amount of **ACO®-san**.
